SUBJECT: CLOSED MEETING SUMMARY (LICENSEE PERFORMANCE REVIEW AND  
MANAGEMENT MEETING) NUCLEAR FUEL SERVICES, INC. -  
DOCKET NO. 70-143

Dear Mr. Ferguson:

This letter refers to the closed meetings at the Nuclear Fuel Services site in Erwin, TN, on January 9, 2007, during which we discussed (1) the NRC evaluation of your performance for your facility covering the period from February 5, 2006 to October 23, 2006. During the licensee performance review meeting, your performance was discussed in the following major areas: safety operations, radiological controls, facility support, licensing activities, and safeguards. The meeting afforded you the opportunity to provide feedback to the NRC regarding nuclear criticality safety, safety culture, problem reporting and assessment, engineering design verification, configuration control, procedural adherence in material control and accounting space, verification of protective strategies, and your perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your plans to improve your management oversight of safety performance.

The names of participating attendees at the meeting and a copy of the presentations used by NRC and NFS are enclosed.
