

May 23, 2008

LICENSEE: Exelon Generation Company, LLC  
FACILITY: Clinton Nuclear Power Station Units 2 and 3  
SUBJECT: SUMMARY OF THE MAY 15, 2008, PUBLIC MEETING TO DISCUSS THE 2007  
CLINTON NUCLEAR POWER STATION  
END-OF-CYCLE PERFORMANCE ASSESSMENT

On May 15, 2008, the Nuclear Regulatory Commission (NRC) held a public meeting at the Warner Library in Clinton, Illinois. The meeting was between NRC Region III and Exelon Generation Company representatives to discuss the NRC's 2007 End-of-Cycle Performance Assessment of the Clinton Nuclear Power Station. The results of that assessment were discussed in a letter to the licensee dated March 3, 2008 (ADAMS ML080600252).

The NRC began the meeting with an overview of the NRC and the nuclear industry, the NRC's Reactor Oversight Process (ROP), and national ROP results. This was followed by a summary of the NRC's assessment of Clinton Nuclear Power Station performance in 2007. The NRC's meeting presentation slides can be found in ADAMS at ML081420828. A list of principal meeting attendees can be found in the attached Enclosure.

Messrs. F. Kearney and M. Kanavos of Exelon Generation provided an oral response to the NRC's assessment. Mr. Kearney also described Clinton station's investment in safe operation, commitment to the environment, and responsibility to be good community stewards. The licensee concurred with the NRC assessment that Clinton Nuclear Power Station operated in a manner that preserved the health and safety of the public and the environment.

At the end of the meeting, members of the public were given the opportunity to ask questions of NRC officials and the licensee representatives.
