Dear Sirs:

I do not think it is fair for  
our Country to have to bear  
the burden of radioactive waste  
from Italy. They have their own  
Country, why can't they dispose  
of their own waste. It will  
ruin our Country and I think  
this should be banned from our  
Country. We need to keep our  
people safe.

Please don't let this happen  
to us. Please protect us.
