Office of the Secretary, U.S. Nuclear  
Regulatory Commission  
Washington, D.C. 20555

2383

attn: Rulemaking and adjudication

Ref: Energy Solutions Import License  
application IW023

I understand from my Congressman,  
Bart Gordon, that there is a possibility the  
United States could become the world's nuclear  
Dumping Ground. We have a limited amount  
of space for nuclear waste. This could cause our  
ports & highways to be jammed & leave us with  
other countries waste & the responsibility to monitor it  
for hundreds of years and we may need the  
space for our own waste.

Please do not let the United States become the  
Dumping Ground for the world's nuclear waste,

Thank you, Sincerely,

Mrs. Julia Beck

Memphis, TN
