Subject: HR 5632

I would like to express my support for any legislation that bans importing any type of radioactive waste into the United States. Allowing this practice sends the entirely wrong message- that we are willing to be a dumping ground, that generating this type of waste without a disposal plan is okay, and that generating nuclear waste is no big deal.

It is a big deal, and bad for whoever gets stuck with it for the next several thousand years. No short term financial gain can be worth the potential long-term cost.

April McCauley
