Paul,

I'm okay with doing whatever it takes to accomplish our mission. Would your expectation be that I work Overtime to continue this enhanced monitoring? If so, how much do you want me to work?

Let me know,

Mike

Fred,

think we covered this when you dropped in on Wednesday afternoon. right now, I think we should continue enhanced monitoring thru Friday. Let's revisit it on Friday too. Depending on what else unfolds, we may want to pay an unexpected visit on the weekend.

I have faxed a travel request for my trip to the region tomorrow. We can discuss if you would like.

Mike and I are wondering how long we need to maintain our "enhanced" monitoring of security. Please call so we can discuss the what, the how much and the how long associated with this.

Based on the monitoring thus far, Mike and I have some thoughts on the ability to obtain the information that is stated to be available.

Fred
