Subject: Re: Here is my first Crack at Answering Eric's Questions

I would talk to Karl to see if we would release it.

>>> Richard Barkley 10/02/2007 8:23 AM >>>
Thanks Dana.

Jim says he has the video. Would we be willing to share it, or would I have to tell Eric that he will have to obtain it via FOIA?

Would we release it at this time? While it is part of an ongoing investigation, much of its was already of TV.

I think Rich answered the NRC work hours question. Our sample of the individuals that were documented as inattentive on the video indicated that they were well within the security work hours requirements (approx. 12.25 hours a day and 36/48 per week). The one question that the AIT was asked to answer:

8. Does Exelon have a chronic problem hiring qualified and competent contractors to perform security functions? Does the NRC place contractors or subcontractors on probation or a do not hire list?

The NRC does not place contractors on a "do not hire list". There is no indication at this time that Exelon has a chronic problem hiring qualified and competent contractors for security.

Looks great - I do have the video files.

Also, Dana can you please take a crack at the hours question.

>>> Richard Barkley 10/01/07 6:59 PM >>>

I am on jury duty Wednesday and Thursday, so I have to get ahead in my work.
