Subject: Bellefonte Scoping meeting

Ms. Hood,

I have the lead for TVA communications related to the Bellefonte project. I know that the scoping meetings are scheduled for April 3 in Scottsboro, Alabama, per the notice in the Federal Register.

At the outreach meetings that the NRC held in communities where new plants are proposed, such as the one on Sept. 11, 2007, in the Bellefonte area, the NRC permitted proponents and opponents to set up "booths" and distribute materials and such during the open house preceding the formal meeting. Do you know if this practice will be followed for the NEPA/EIS process at the public meetings (scoping and draft EIS review)?

Please don't interpret this inquiry as a request for table space. I personally think it would be distracting from the purpose of the NEPA meetings.

Thanks,

Terry Johnson
