**Subject:** Attention:Rulemaking and Adjudications.

In reference to Energy Solutions Import License Application IW023.

I am concerned that NRC would consider receiving nuclear waste from other countries! If they can't get rid of their waste they should not be creating it! They should have the responsibility of taking care of their own waste! No amount of money that we would receive for that would be worth the risk! I think it would be irresponsible of us to accept nuclear waste from other countries. We would OPEN OURSELVES UP to all kinds of destructive forces and possibilities. Please think of these things and deny this request.

Sincerely,  
Donna Braswell
