

# U.S. NUCLEAR REGULATORY COMMISSION

## TELEPHONE CONVERSATION RECORD

Date: May 30, 2008

Time: Various

Mail Control 2008-001 License No(s) 29-19080-01  
or Report No(s).

Docket No(s) 03016033

Name of Licensee: Seiko Corporation of America

Name of Participant(s): Frank Bonura, Director of Coserv  
Steven R. Courtemanche, Health Physicist NRC RI

Telephone No. 201-529-5730  
610-337-5075

Subject: Information Regarding Licensed Program  
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: 10:45 I was informed that Joanne Marione, Radiation Safety Officer, and her supervisor were not available. I was directed to speak with Mr. Bonura who was out of the building but would return shortly. I informed his administrative assistant that the matter of the phone call was in regard to their licensed program involving radioactive materials and required a commitment on the part of the licensee. The matter could not wait until the return of Mr. Marione or her supervisor.

14:10 I contacted Mr. Bonura and informed him of the findings from NRC HQ. He stated that he was confused and had thought that the issue was closed. I said that the issue regarding the repair of watches was closed which could be performed under the -01 license but that another issue arose. Headquarters determined that replacing the hands and/or dials of watches and sending the watch back to the customer was a new distribution of exempt material and required an E-license. Mr. Bonura agreed to stop the practice of replacing Pm-147 hands and dials until a new E-license was issued. Alternatively, he stated that the program may be terminated, in which case, decommissioning activities would be started. Mr. Bonura stated that he would need two weeks to determine which course of action to take.

Action Required: Issue minor violation not requiring a response. Place in ADAMS
