Subject: Status of RAI Response for the TS125 Transportation System CoC Amendment Request (TAC No. L24034)

- References: 1) Letter from EnergySolutions SFD to U.S. NRC, Subject: Submittal of Request to Amend the FuelSolutions™ TS125 Transportation System CoC, October 1, 2006.
- 2) Letter from U.S. Nuclear Regulatory Commission to S. Sisley, Subject: Request for Additional Information on TS125 Amendment Request, July 27, 2007.

Dear Mr. Rahimi,

On October 1, 2006, EnergySolutions Spent Fuel Division (EnergySolutions SFD) submitted a letter to NRC (Reference 1) requesting to amend the FuelSolutions™ TS125 Transportation System Certificate of Compliance (CoC) to add 48 currently loaded VSC-24 Multi-Assembly Sealed Baskets (MSBs) to the TS125 transportation package contents. On July 27, 2007, NRC sent a letter (Reference 2) to EnergySolutions SFD with an enclosed Request for Additional Information (RAI). As recommended in the reference 2 letter, EnergySolutions SFD met with NRC staff on September 5, 2007 to discuss the RAI. Since the meeting we have prepared a partial response to the RAI. However, due to a lack of utility funding in 2008, we will not submit the completed RAI response to NRC until early 2009. EnergySolutions SFD will provide NRC with a more definitive date for the RAI response by November 2008 to support NRC staffing plans.

Should you or any member of your staff have questions, please contact me at (408) 558-3509.

Sincerely,

A handwritten signature in black ink, appearing to read "Sisley", is written over a faint, larger version of the same signature.

Steven E. Sisley
Licensing/Regulatory Compliance Manager
