Amazing. Today I learn that we are thinking of importing toxic waste to process and load into our land. This is OUR country. How could you think of such a thing. We are against this project and ask you not to do such a thing.We will have a third world country that is impossible to grow corn or anything else if we do this a few times or just once. STOP! We are against it totally. STOP! STOP! STOP! The governor has professed to be a "Green Governor" and this is in the works. Why is it that we have just learned of your lousy plan to do this?
