Subject: Transmittal of Response to NRC Draft Status Report on CROSSFLOW Ultrasonic Flowmeter (Proprietary)

Reference: Email, G. Shukla (NRC) to J. A. Gresham (Westinghouse), "NRC Draft Status Report on CROSSFLOW Ultrasonic Flowmeter," April 26, 2006

In the course of conducting a review of the CROSSFLOW Ultrasonic Flow Measurement System technology and its application, the Nuclear Regulatory Commission (NRC) identified a number of issues and has communicated those issues to Westinghouse Electric Company LLC and the Advanced Measurement Analysis Group, Inc. in their report, "A Draft Status Report Covering the NRC's Assessment of the Westinghouse/AMAG (W/AMAG) CROSSFLOW Ultrasonic Flowmeter (UFM)" (Reference). Provided herewith are Westinghouse/AMAG responses to the issues identified in the Draft Report (LTR-NRC-06-39 P-Attachment). W/AMAG have provided comments and answered questions that were posed in the Draft Report. Where appropriate, additional information has been provided or referred to that should assist in resolving the issue, including new information that is being provided under separate cover and concurrent with this submittal.

Also enclosed is:

1. One (1) copy of the Application for Withholding, AW-06-2161 with Proprietary Information Notice.
2. One (1) copy of Affidavit, AW-06-2161.

Westinghouse finds that because of the highly technical nature of Mr. Lyon's document and the embedded Westinghouse/AMAG responses, LTR-NRC-06-39 P-Attachment is being transmitted as proprietary in its entirety; a non-proprietary version of this document does not exist. This submittal contains Westinghouse proprietary information consisting of trade secrets, commercial or financial information which we consider privileged or confidential pursuant to 10 CFR Section 2.390. Therefore, it is requested that the Westinghouse proprietary information attached hereto be handled on a confidential basis and be withheld from public disclosure.

This material is for your internal use only and may be used solely for the purpose for which it is submitted. It should not be otherwise used, disclosed, duplicated, or disseminated, in whole or in part, to any other person or organization outside the Office of Nuclear Reactor Regulation without the expressed prior written approval of Westinghouse.

Information in this record was deleted in accordance with the Freedom of Information Act. Exemptions: 2008-0046
