Mr. Robin DeLaBarre  
U.S. Department of State  
2201 C Street, NW  
Office of Nuclear Energy Affairs, Room 3318  
Bureau of International Security and Nonproliferation  
Washington, D.C. 20520

Dear Mr. DeLaBarre:

Enclosed is an application for an export license (XCOM1198), from Eaton Corporation/Warwick Plant, received by the U.S. Nuclear Regulatory Commission, to export 100 pieces each of seal assembly shafts to the China Nuclear Energy Industry Corporation, Qinshan Candu Project in China for ultimate use in the CANDU reactor. The seal assemblies will be sent to an intermediate consignee, Atomic Energy of Canada, Ltd., for incorporation into a fueling machine ram assembly.

We understand that the Executive Branch has accepted the generic assurances provided by the Canadian Government in 1998 for similar exports of components via Canada to China. Thus, before taking action on this license application, we would appreciate receiving your views.

Sincerely,

*/RA/*

Stephen Dembek, Branch Chief  
Export Controls and International Organizations  
Office of International Programs
