

June 9, 2008

**MEETING REPORT
Ur-Energy USA, Inc.**

DATE: April 28, 2008

TIME: 4:00 p.m.

PLACE: The Curtis Hotel
1405 Curtis Street
Denver, CO 80202

PURPOSE: Discuss the status of the NRC review of the Lost Creek application, status of various exploration and development projects, and the definition of pre-license construction.

ATTENDEES: See Attachment A

BACKGROUND:

Ur-Energy, USA, Inc. (Ur-Energy), through its wholly-owned subsidiary Lost Creek ISR, LLC (LCI), has applied to operate an *in situ* leach (ISL) uranium recovery facility at its Lost Creek site in Sweetwater County, Wyoming.

DISCUSSION:

After introductions, Ur-Energy discussed the status of the LCI Application. NRC staff stated that it is performing the acceptance review. LCI is also submitting the necessary applications to Wyoming Department of Environmental Quality. LCI has an active public involvement program, which will continue.

At Lost Creek, LCI is mobilizing to field delineate up to 400 holes, installing monitoring well ring and a temporary storage shed. Lost Creek will have 6 mine units. A fault is located onsite that will be crossed by the first mine unit. Fault within the property. LCI submitted the first two pumping tests in the application to delineate the fault; third test was performed and was consistent. At Lost Soldier, Ur-Energy is collecting water samples, performing pump tests, and has installed a meteorological station for collecting data.

After the business portion of the meeting, questions were received from members of the public. Answers were provided by NRC staff.

ACTIONS:

None
