## MEETING SUMMARY

LICENSEE: ENERGY NUCLEAR OPERATIONS, INC.  
FACILITY: INDIAN POINT ENERGY CENTER  
SUBJECT: SUMMARY OF MAY 20, 2008, PUBLIC MEETING ON NRC'S INSPECTION AND ASSESSMENT OF ENERGY'S INVESTIGATION AND CHARACTERIZATION OF CONTAMINATED GROUNDWATER CONDITIONS AT INDIAN POINT

On May 20, 2008, NRC Region I conducted a public meeting to report on the results of its inspection and assessment of Entergy's investigation and characterization of contaminated groundwater conditions at the Indian Point Energy Center that were first discovered in September 2005. The meeting was held at the Colonial Terrace, Cortlandt Manor, New York. A list of NRC, USGS, and Entergy attendees is attached.

The agenda for the meeting was comprised of: (1) NRC-sponsored informational poster sessions on various topics of current interest such as Dry Cask Storage of Spent Fuel, License Renewal, Plant Operations, Emergency Planning Issues, and Groundwater Characterization and Assessment as performed by the United States Geological Survey and the Nuclear Regulatory Commission; (2) invited poster sessions sponsored by non-governmental organizations such as Riverkeeper, Inc., and the Indian Point Safe Energy Coalition; (3) a presentation by Entergy describing its actions, response, and accomplishments relative to their investigation and characterization of onsite groundwater contamination conditions; and, (4) a presentation by NRC representatives relative to the inspection and assessment of Entergy's performance relative to the groundwater contamination conditions. Following the presentations, Entergy and NRC representatives addressed questions posed by various members of the public relative to the current groundwater conditions, plans for long-term monitoring, and future inspection.

The meeting was attended by about 60 members of the public. Twenty-one representatives from NRC, U.S. Geological Survey (USGS), and Entergy were available for support.

Feedback forms submitted by the public following the meeting will be evaluated. The following documents pertaining to this public meeting may be found in ADAMS at the following accession numbers:

ML081340425, NRC Inspection Report 0500247/289/003-2007010, dated May 13, 2008;  
ML091270124, NRC Public Meeting Notice, dated May 5, 2008;  
ML080320600, Results of Geohydrological Assessment of Indian Point, dated January 7, 2008  
ML081480473, NRC Graphics and Slides from Public Meeting, dated May 20, 2008

ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

NRC, USGS, and Entergy Meeting Attendees

**Nuclear Regulatory Commission**

Marc Dapas-Deputy Regional Administrator, Region I, (RI)  
Marsha Gamberoni-Director, Division of Reactor Safety (DRS), RI  
John White-Branch Chief, DRS, RI  
Rich Conte-Branch Chief, DRS, RI  
Donald Jackson-Senior Engineer, Division of Reactor Projects (DRP), RI  
James Noggle-Senior Health Physicist, DRS., RI  
John Boska -License Project Manager, Office of Nuclear Reactor Regulation (NRR)  
Steve Garry -Leader, Health Physics Team, NRR  
Marjorie McLaughlin-State Liaison Officer, RI  
Ray Lorson-Branch Chief, Division of Nuclear Materials Safety, RI  
Neil Sheehan-Public Affairs Officer, RI  
Thomas Nicholson- Senior Technical Advisor, Office of Research (RES)  
Richard Barkley-Regional Communications Assistant, RI  
Robert Nelson-Director, Division of Operator Licensing, NRR  
Patricia Milligan-Senior Technical Advisor, Office of Nuclear Security and Incident Response  
Paul Cataldo, Senior Resident Inspector-Indian Point, DRP, RI

**U.S. Geological Survey**

John Williams, Senior Scientist, U.S. Geological Survey

**Entergy Nuclear Operations**

Joseph Pollock, Site Vice President, Entergy Nuclear Operations, Inc., (ENO), Indian Point  
Energy Center (IPEC)  
Donald Mayer, Director of Unit 1 and Special Projects, ENO, IPEC  
Thomas Orlando, Director of Engineering, ENO, IPEC  
Patrick Conroy, Director of Nuclear Safety Assurance, ENO, IPEC
