

FEMA

June 3, 2008

Mr. Roland Lickus
Chief, State & Government Affairs
U.S. NRC – Region III
2443 Warrenville Road – Suite 210
Lisle, IL 60532-4352

Dear Mr. Lickus:

Attached are the revised pages to the Emergency Operations Plans (EOPs) for the State of Wisconsin and the Counties of Kewaunee and Manitowoc, Wisconsin, dated February, 2008. Kewaunee and Manitowoc Counties lie within the 10-mile emergency planning zones for the Kewaunee Power Station and Point Beach Nuclear Power Plant.

There were no 2008 updates for the Pierce County EOP. Also included are copies of the 2008 Emergency Planning Zone (EPZ) Maps for the 10-mile and 50-mile EPZs. Maps for Pierce County, Wisconsin, were sent to you earlier this year in conjunction with the Prairie Island plan reviews. Please note that the State of Wisconsin has moved quarterly plan updates to annual updates that will be submitted for review to DHS/FEMA, when appropriate, during the first calendar quarter of each year.

We request that you review this material for conformity to Title 44, Code of Federal Regulations, Part 350, and the requirements in NUREG-0654. Please provide written comments regarding your review to FEMA, Region V, by July 2, 2008. Please retain the prior approved plan sections until all Regional Assistance Committee members have provided us with their review comments. At that time we will notify you of our findings concerning final approval, and provide updating instructions.

If you should have any questions, please contact me at 312-408-5575 or Carl Bebrich at 312-408-5240.

Sincerely,

William E. King, Chairman
Regional Assistance Committee

Enclosures: 2008 Plan Updates for the State of Wisconsin, Kewaunee County and Manitowoc County
