RE: USA/6613/B(U)-96 (Current Revision 12)

Dear Director:

This letter clarifies that our submission requests dated 5 October 2007 and 25 October 2007 were also submitted to comply with the reporting requirements of 10 CFR 71.95. Amendment to the referenced Type B(U) certificate will complete correction of the typographical discrepancies noted and accurately document all historical fabrication of the 702 container assemblies by users of the package. The discrepancies noted in our previous submissions are all minor in nature and with no resulting safety significance. We are investigating the root cause of these discrepancies and are taking appropriate comprehensive corrective and preventive actions to prevent recurrence of similar issues.

At this time there are no further changes or modifications necessary to this Type B approval. Should you have any additional questions or wish to discuss this submission after receipt please contact me.

Sincerely,

Lori Podolak
Senior Regulatory Affairs Specialist
