June 10, 2008

Mr. Jim Mullauer  
FAX: 630-829-9873

Dear Jim:

I wanted to bring you up to date on all aspects of our application for a license.

We just had a very helpful meeting with Mr. Bob Gatone of the Nuclear Regulatory Commission. It appears that our facility and credentials are all in order, but Mr. Gatone brings up a very important point.

On our initial application, the licensee is listed as Baltes Cardiology. Subsequent to that application request, two other physicians, Doctors Ahuja and Apuri, each of whom have a separate corporation and are independent of each other and of us, have asked to form with Doctor Baltes and myself a Limited Liability Corporation for purposes of performing nuclear scans. Therefore, we are all going in on the total cost of the equipment and we will all bill for our services separately. The corporation would employ two people, an exercise technician and a nuclear technician.

The name of the new entity is, "Fort Wayne Cardiovascular Imaging, LLC." Today we are seeing the accountant to form the corporation and to fill out the needed paperwork. Therefore, we want to let you know that the license would actually be issued not to Baltes Cardiology but, rather, to Fort Wayne Cardiovascular Imaging, LLC.

Please let me know if this presents any problems and we, of course, will do our very best to expedite the situation. Mr. Gatone found no other problems and we look forward to getting our license soon.

Thank you very much for your time and consideration in this matter.

Sincerely,

Thomas P. Ryan, D.O.
