Documents Title in ADAMS)

Summary: In a letter dated 5/7/08, the licensee requested the removal of the Best Medical Model 81-01 iridium-192 brachytherapy sources. According to Dr. Park, they stopped using the sources when they initiated their HDR program approximately five years ago. All of the Ir-192 ribbons were returned to Best Medical following their use. Dr. Park confirmed that they do not have any ribbons left on-site. He will document that in a letter.
