 Subject: Stop EnergySolutions' Italian nuclear waste import submission

Insert personal comments here: : I'm writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S.

Rather than send one more copy of a form letter, let me keep this short and note that residents of Utah do not want to become a disposal site for other nations, especially in light of the possibility that the U.S. is considering developing more nuclear power plants of its own (a move that we support). Granting this request would set a dangerous precedent for the U.S. to become the world's nuclear waste repository at a time when our own low-level waste disposal capacity remains uncertain.

Please reject EnergySolutions' application. Thank you.
