Subject: FW: Updated Well 986 work plan
Attachments: 986.doc

John,

We believe the attached revised plan incorporates the items we discussed during our telecon earlier this week. We will proceed with contacting land/well owners to inquire as to access and permission to conduct the relevant testwork and sampling outlined in the evaluation plan. Per our discussions, this will serve as our formal filing of the Evaluation Plan in response to NRC's request to provide a suggested plan to evaluate the condition and status San Andres Well 986. We look forward to receiving your agreement and concurrence with the proposal.

If you have any questions, please contact me at your earliest convenience.

Thanks.....Al

Alan D. Cox
