OFFICE OF SECRETARY
 RULEMAKINGS AND
 ADJUDICATIONS STAFF

Insert personal comments here: : Dear Office of the Secretary,

I strongly urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S.

By granting this request, the Nuclear Regulatory Commission would set a dangerous precedent for the U.S. to become the world's nuclear waste repository at a time when our own low-level waste disposal capacity remains uncertain. Filling up our domestic resources for low-level waste disposal with another country's nuclear waste will put considerable pressure on existing U.S. disposal sites to expand and create a need for new sites to open up. The emergence of new and larger low-level nuclear waste sites due to foreign waste disposal constitutes an unreasonable risk to public health and safety. Having to safeguard these sites from terrorist attacks or other acts of intrusion will put considerable strain on our national defense and security. Furthermore, the transportation of this waste into our ports and through our cities and towns presents an unacceptable risk to our health, safety, and security.

Please make the right decision and reject the application submitted by EnergySolutions. Thank you.
