Subject: Stop EnergySolutions' Italian nuclear waste import submission

Insert personal comments here: : As a nuclear medicine physician practicing in Utah for the past 30 years, I have more than an average citizen's perspective on the advantages and disadvantages of nuclear materials and the waste issue. My views are based on an intimate knowledge of the science of radioactive materials use and radiation safety.

From this perspective there is absolutely no reason to allow transportation to or storage in Utah or any other US locations. The advantage is solely the economic exploitation of our citizens for EnergySolutions' benefit. Please do not sanction this application, which is an unnecessary risk for all.
