Subject: Stop EnergySolutions' Italian nuclear waste import submission

Insert personal comments here: : As a Utah citizen for almost 30 years, I have been a strong advocate for Green Energy and for protecting Utah's environment in every way. I am STRONGLY AGAINST Energy Solutions desir to import foreing waste product into our state to their profit and Utah's questionable safety. This sets a very scary precedent, allowing other countrys' waste to be dumped in our country while we continue to strugglwe with the disposal of our OWN COUNTRYs' waste. I STRONGLY URGE you to DENY this request, and help put the world AND Energy Solutions on notice that we will NOT accept the job of taking the worlds' waste here in Utah. This waste disposal is a GLOBAL problem, and needs to be dealt with by individual countries managing their own waste, and then together, as a global nation, to find other energy sources that do not threaten the world's environment and overall life on the planet we share and need to protect. Thank you.

***By EnergySolutions own admission where it states in its application, "the sources of this material are not fully known", some of the waste may be above allowable contamination for processing and disposal in Utah. The Commission should not agree to allow this import when the nature and hazards of this material remain unclear.
