Comment : Ladies and Gentlemen:

I am writing you to request that the Nuclear Regulatory Commission deny the request to import Italian nuclear waste into the United States.

As a faculty member of a business school at a local university, I have the impression that both the students and the business community are both opposed to this proposed import of waste. While I cannot represent the business community, the proposal in question clearly crosses the boundary of good business management sense.

Energy Solutions is, of course, acting on its own financial interest. We look to you to review the higher community and national interest. That broader interest includes avoiding pressure to expand nuclear storage sites, and protection of the public from undue economic pressure from narrowly defined interests, opposed by the majority of disinterested parties as a dangerous precedent.

Regards,

Mark Thomas
