SUBJECT: NEW RIVER VALLEY HEART CLINIC, LLC, REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL NO. 142374

Dear Mr. Millirones:

This is in reference to your letter dated April 2, 2008 requesting to amend Nuclear Regulatory Commission License No. 45-25623-01. In order to continue our review, we need the following additional information:

1. Some experience elements were missing from the NRC Form 313A (AUD) submitted for Dr. Wyne to become an authorized user. All of the experience elements in section 3b was not completed with the exception of eluting the generator. Additionally the number of hours of experience and supervising authorized user was not completed. Please submit the hours and experience as shown in section 3b of NRC Form 313A (AUD).
2. The experience element, Eluting generator systems appropriate for the preparation of radioactive drugs for imaging and localization studies, measuring and testing the eluate for radionuclidic purity, and processing the eluate with reagent kits to prepare labeled radioactive drugs, was completed at Associates in Medical Physics, LLC. This appears to be a laboratory for your didactic course and not experience. Please complete the information on where you obtained experience and the name of the supervising authorized user.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material; Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 142374. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5366.

J. Millirones
