Subject: Please Deny EnergySolutions' Import Application (IW023) submission

Comment : Dear Office of the Secretary,
I'm writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S. We have never found an adequate way of disposing of the U.S.'s nuclear waste, why in the world would we let Italy ship their waste here?

I've lived in Moab, Utah for over 30 years and have fought the Atlas Tailings waste being buried in place next to the Colorado River. It has given me a huge appreciation for how toxic this waste is and how difficult it is to get the Nuclear Regulatory Commission to act in the best interests of community. Nuclear waste is not safe and Utah has had huge Health costs in added cancer rates because of all the nuclear waste and nuclear testing that has gone on through the years in Utah.

It is wrong to allow even more nuclear waste into this state—we haven't yet dealt with the contamination from our own past industry.

I strongly urge the Commission to reject the application submitted by EnergySolutions.
Thank you, Eleanor Bliss
