Subject: Please Deny EnergySolutions' Import Application (IW023) submission

Comment : NO on importation of ANY nuclear waste to UTAH.

Nuclear waste deserves to be disposed of where it is made, and if that can not be accomplished, it should not be considered as an energy solution for that place. This would be a very unwelcome incentive to all pro-nuclear concerns, to proliferate their unresolved 'solutions' for clean power.

Nuclear has the capacity to be a clean power source, once a solution is found for using or destroying the toxic waste it creates.

Say "NO!" to this proposal. As a concerned citizen whose interests are as important as any industrial concerns or even your very own, we live here and that in its own right places additional weight on this request.

EnergySolutions is simply answering to its shareholders.

We are answering to our children.

Send a powerful message to the industry at large. Find a true solution or shut the hell up.

Dennison D. Dolato

Concerned citizen.
