I would like to voice my opposition to the importation of foreign nuclear waste. It seems to me that each country should bear the responsibility of disposing their own nuclear waste within their own boundaries. If they do not know how to do so, perhaps we could share our knowledge with them. But to make it our responsibility seems to be asking for a problem we do not need. It would be like me asking to dump my garbage in my neighbor's yard and have them deal with it. I appreciate the opportunity to voice my concern.
