RE: ENERGY SOLUTIONS IMPORT LICENSE APPLICATION IW023

As citizens of the State of Tennessee, we are adamantly opposed to becoming the world's nuclear dumping ground. Other countries should bear the responsibility of disposing of their own waste. The plan being considered doesn't make sense.

As senior citizens, we would request that you consider Bart Gordon's bipartisan legislation that will ban the importation of foreign nuclear waste for the future generations of this Country.

Respectfully,

Connie Zehrunge
John Sanders
