BURNT

DOCKETED
USNRC

10 June 2008

June 11, 2008 (4:07pm)

U. S. Nuclear Regulatory Commission secy@nrc.gov [please see letter, attached file]

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

RE: License Application Numbers IW023
XW013

[Federal Register Volume 73, Number 28, 11 February 2008]

A request for a NO Vote on the above applications

BURNT is a non-profit, 20 year old environmental group in Nashville Tennessee which works on solid waste, landfills, pesticides, clean water, and low level multiple chemicals in our bodies and environment. We work on state and local issues.

We ask the Nuclear Regulatory Commission to say NO to License Applications IW023 and XW013 (Federal Register Volume 73, Number 28, 11 February 2008) which allows the import and processing of Italian nuclear waste to Tennessee and America.

We are opposed to Energy Solutions application to import 20,000 tons or one million cubic yards of radioactive waste from Italy to Tennessee to burn, melt, or landfill in Tennessee or Utah.

Part of our opposition is based on State regulation of landfills and nuclear waste. Oak Ridge is very highly contaminated with clear health problems plaguing the citizens. Landfills across the State from Carter Valley to Dickson County to New Johnsonville are plagued with pollution.

BURNT does not favor the importation of nuclear waste to Tennessee from outside the Stater or outside the country. We do not believe nuclear waste has been managed safely in Tennessee.

We request a hearing on this matter in Nashville, which is in the middle of the State and centrally located.

Thank you

Bruce Wood
President
