

SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION

<p>1. LICENSEE/LOCATION INSPECTED: <i>R.S. Scott Associates, Inc</i> <i>Alpena, MI; and Lewiston, MI</i> REPORT NUMBER(S) <i>2008-001</i></p>	<p>2. NRC/REGIONAL OFFICE U.S. Nuclear Regulatory Commission Region III 2443 Warrenville Road Suite 210 Lisle, Illinois 60532-4351</p>	
<p>3. DOCKET NUMBER(S) <i>030-13803</i></p>	<p>4. LICENSEE NUMBER(S) <i>21-18504-01</i></p>	<p>5. DATE(S) OF INSPECTION <i>6/4/08</i></p>

LICENSEE:
 The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, NUREG-1600, to exercise discretion, were satisfied.

_____ Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.
 (Violations and Corrective Actions)

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

Main Office Inspection Next Inspection Date: June 2013

Field Office

Temporary Job Site Inspection Lewiston, Michigan

PROGRAM SCOPE

The licensee is a moderately sized engineering firm and possessed six Troxler gauges. The gauges are primarily used March through October which is the construction season. Currently, the licensee employed 12 gauge operators at the time of the inspection and operated numerous gauges out at field sites.

Performance Observations

During the inspection, the inspector reviewed the licensee's storage area in Alpena, Michigan and took radiation measurements around the area; the licensee's security at the storage location was adequate and no abnormal radiation measurements were noted. The inspector reviewed the licensee's leak test records, inventory records and dosimetry records; no abnormal issues were identified. The inspector also performed a field site inspection at Lewiston, Michigan. The inspector reviewed the licensee's implementation of security procedures, and transportation documentation and implementation; no abnormal issues were identified. Both during the main office and field site inspection, the inspector interviewed the radiation safety officer and gauge operators and noted that each had adequate knowledge to ensure the safety use and storage of licensed material.
