Secretary

U.S. Nuclear Regulatory Commission,

Attn: Rulemakings and Adjudications Staff,

Washington, DC, 20555-0001

DOCKETED  
USNRC

June 12, 2008 (4:15pm)

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Dear Secretary:

I am writing in opposition to the following proposal:

"EnergySolutions, based in Salt Lake City, is seeking a license from the Nuclear Regulatory Commission to import various types of materials from decommissioned nuclear facilities in Italy."

This is very dangerous to the environment and our nation's health and well being.

Sincerely,

Mark Tolf
