Subject: Voidance of License Amendment Request
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: I spoke with Mr. Hannig about the request to amend the license to permit clients to dismantle and ship gauges to the New Jersey location for repair. He had spoken to the parent company in Germany who indicated that the labels on their devices did not allow for general licensees to dismantle the gauges for shipment. Mr. Hannig stated that this license amendment request should be voided. It will take him some time to put together a radiation safety program and the information he will need to perform repairs at the New Jersey facility.

Action Required: Void Licensing action.
