AUDIT REPORT OF SOUTH TEXAS PROJECT PRE-COMBINED

BETWEEN MAY 21, 2007, AND MAY 24, 2007.

By Letter dated September 10, 2007, South Texas Project Nuclear Operating Company (STP) provided a response to the NRC Quality Assurance Audit Report for STP Units 3 and 4 dated August 16, 2007. The report described the quality assurance audit conducted by the NRC on pre-combined operating license application activities (COLA) activities performed by STP and its sub-contractors in support of the STP Units 3 and 4 COLA development program. The audit was conducted during the period between May 21, 2007, and May 24, 2007.

The staff has reviewed the responses provided in the STP letter dated September 10, 2007, which address each of the issues identified in the NRC audit report as Audit Response Requests (ARR-01 thru ARR-04), and find that the STP replies to these ARRs are responsive to our concerns. We have no further questions or comments at this time.
