Subject: RE: Calvert Cliffs site audit prep

It would be helpful if someone from the Maryland Public Service Commission and/or the Power Plant Research Program of the Maryland Department of Natural Resources could attend the audit and talk about need for power and their roles in the State approval process for the proposed plant. As I recall there was a fellow from the PPRP who made a presentation at the preapp visit last June.

Paul

Tom,

NMFS and DNR would like to participate in the audit so please send them the detailed schedule with times of boat tours, etc. as soon as possible so they have ample time to plan their travel.

Here are the contacts:

NMFS EFH: John Nichols (john.nichols@noaa.gov) NMFS PR: Julie Crocker (julie.crocker@noaa.gov) MD DNR: Pete Dunbar (pdunbar@dnr.state.md.us; 410-260-8665) as well as rmclean@dnr.state.md.us and sgray@dnr.state.md.us

Also, Pete Dunbar suggested contact the Maryland Energy Administration so I told him I would pass along that information to you. You can contact Malcolm Woolf at mwoolf@energy.state.md.us.

I left messages for FWS (Cherry Keller, 410-573-4532) and ACE (Jeff Trulick, 410-962-6141) so they might want to participate as well. I'll keep you posted.

I am assuming that you or the other NRC technical specialists will be contacting other appropriate agencies, including all of those dealing with NPDES and other permits.

Janelle, Roy, and Paul, please let me know if there's another agency you'd like me to contact for terrestrial, aquatic, or land use portions of the review.

Thanks,
Harriet
