On June 19, 2008, NRC staff (Tanya Simms, Chang Li, Ilka Berrios) participated in a telephone conference call with TVA representatives and observers (see below) regarding the staff's detailed review of the Bellefonte Units 3 and 4 COL application. The purpose of the call was to discuss requests for additional information (RAI) #278.

The discussion focused on the applicant's request for clarification of the waste water retention basin water level instrumentation and radiation monitoring regarding COLA information reviewed in FSAR chapter 9, Section 9.2.9.2.2.

At the conclusion of the call, staff informed TVA that the RAI would be issued by the staff.
