STATE REPRESENTATIVE

*Sid Miller*  
DISTRICT 59

June 9, 2008

An Open Letter to the Nuclear Regulatory Commission:

Welcome to Glen Rose, the home of Comanche Peak Nuclear Power Plant. I am pleased to represent thousands of area residents who live and work around Comanche Peak as their State Representative.

As a small businessman, community leader, agriculturist, former schoolteacher, and former school board member in this region, I've seen first-hand the benefits from Comanche Peak. They have been a good neighbor to our area for more than 30 years during licensing, construction and now operation. They also provide safety, security, jobs, taxes and clean, reliable electricity for our area and our state.

Now Comanche Peak has announced its intention to develop a combined operating and licensing application for 2 new nuclear power units. This would add even more jobs, taxes and needed electricity. It would also reward an important part of our community who, in my eyes, has earned the right to expand.

I want to add my support for this potential expansion and these benefits to the others you will hear this evening. This would be an important step for our region and I want to provide my wholehearted support for Comanche Peak.

This public meeting is the first, important step in a very long process. I appreciate the Nuclear Regulatory Commission for involving the citizens of the area in the process. Public information is very important – especially on the potential increase in nuclear power in Texas.

Thank you for coming to Glen Rose, please let me know if I can help support this request or provide any information to help this project move forward.

Sincerely,

  
Representative Sid Miller
