Washington, D.C, 20555-001

①

As a citizen of Raleigh, North Carolina, I urge you to approve the expansion of the nuclear power plants in our state. Nuclear power plants have a wonderful track record. As a former Marine Engineer and General Contractor, I understand many of the problems that have to be considered. We need more electrical capacity. Nuclear power is cheaper, safer, and cleaner and has less environmental impact.

North Carolina needs energy and less dependence on oil. Nuclear Energy will help our economy. Again, I urge you to approve the expansion of Nuclear.

Sincerely,

  
Jim Flythe
