

Braidwood Generating Station

2007 NRC End of Cycle Meeting

June 23, 2008

A photograph of the Braidwood Generating Station, a large industrial facility with several buildings and tall smokestacks, situated behind a body of water. The foreground is dominated by tall, golden-brown reeds. The sky is a clear, pale blue. The entire image is framed by a thick green border.

Bryan Hanson
Site Vice President
Braidwood Station

Plant Performance

- ✓ Operated safely and reliably in 2007
- ✓ Achieved 6 million hours without a lost time injury
- ✓ Received OSHA's VPP Star status award for industrial safety
- ✓ Set a record for lowest dose in eight of 12 months
- ✓ Earned the ISO 14001 environmental certification
- ✓ Achieved an industry top quartile Capacity Factor of 95.1%
- ✓ Completed a safe and successful Unit 2 refueling outage

2008 'Focus Areas'

- ✓ Human Performance (Configuration Control)
- ✓ Equipment Reliability (Online Work Control)
- ✓ Radiation (low dose)
- ✓ OSHA (Safety)

Tritium Remediation

- ✓ The highest concentration of tritium in the groundwater had been reduced by 90% as of December 2007
- ✓ Efforts continue to remediate the remaining areas that are affected
- ✓ We are committed to keeping the public informed (next Community Info Night is July 17)

Supporting the Community

- ✓ Braidwood Station and its employees are part of the community
- ✓ Braidwood is Will County's highest taxpayer (\$20.8 million including PILOT payments)
- ✓ In 2007, supported the Braidwood Community Care Center and also sponsored the Braidwood Shootout (basketball tournament) and Summerfest fireworks
- ✓ Fishing for a Cure (2008 event) raised more than \$27,000 for the Food Allergy & Anaphylaxis Network
- ✓ In 2008, donations have been made to the Braidwood and Gardner fire departments
- ✓ Improvements to the Braidwood fishery
