DESCRIPTION OF THE PROCEEDING

This proceeding concerns the application for a COL filed pursuant to 10 C.F.R. Part 52, *Licenses, Certifications, and Approvals for Nuclear Power Plants* by Duke on December 12, 2007. The application was supplemented by a letter dated January 28, 2008, two letters dated February 6, 2008, and a letter dated February 8, 2008. The application was accepted docketing on February 25, 2008. Notice of hearing and opportunity to petition for leave to intervene was published in 73 Fed. Reg. 22978 on April 28, 2008.

REQUEST FOR OPPORTUNITY TO PARTICIPATE

Pursuant to 10 C.F.R. § 2.315, “The presiding officer will afford an interested State, ... which has not been admitted as a party under § 2.309, a reasonable opportunity to participate in a hearing.”

SC ORS is the South Carolina state agency charged with the statutory duty of representing the public interest of South Carolina in utility regulation. Pursuant to S.C. Code Ann. § 58-4-10 (Supp. 2007), ORS must be considered a party of record in all filings, applications, or proceedings before the South Carolina Public Service Commission and must represent the public interest of South Carolina in utility regulation. Furthermore, it is the duty and responsibility of the ORS, when considered necessary by the Executive Director and in the public interest, to provide legal representation of the public interest before federal regulatory agencies and federal courts in proceedings that could affect the rates or service of any public

utility. *See* S.C. Code Ann. § 58-4-50 (A)(8) (Supp. 2007). The public interest is clearly defined by South Carolina statute as a balancing of the (1) concerns of the using and consuming public with respect to public utility services, regardless of the class of customer; (2) economic development of job attraction and retention in South Carolina; and (3) preservation of the financial integrity of the state's public utilities and continued investment in and maintenance of utility facilities so as to provide reliable and high quality utility services. S.C. Code Ann. § 58-4-10 (Supp. 2007).

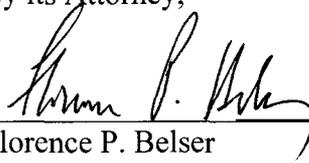

Duke is a vertically-integrated utility engaged in the business of generating, transmitting, distributing, and selling electric power to the public pursuant to authorization granted under the laws of the State of South Carolina. In the instant proceeding, Duke has requested the NRC to approve a COL for the construction and operation of two new nuclear reactors to be located at the William States Lee III nuclear station in Cherokee County, South Carolina. The site for the two proposed nuclear reactors is situated within the boundaries of the State of South Carolina.

WHEREFORE, the SC ORS, respectfully requests that the Commission

- (1) grant the SC ORS the opportunity to participate in any hearing regarding Duke's application in this matter, including pursuant to 10 C.F.R. § 2.315 the opportunity "to introduce evidence, interrogate witnesses where cross-examination by the parties is permitted, advise the Commission without requiring the representative to take a position with respect to the issue, file proposed findings in those proceedings where findings are permitted, and petition for review by the Commission under § 2.341 with respect to the admitted contentions," and
- (2) add the SC ORS to the official service list in the proceeding.

Respectfully submitted,

South Carolina Office of Regulatory Staff
By its Attorney,
