Subject: Fwd: NC DWQ Cape Fear River Basin Water Users Meeting

Roger and Tara,

FYI.

Don

>>> "Snead, Paul" <paul.snead@pgnmail.com> 3/10/2008 1:58 PM >>>
Don,

Per our discussion last Thursday, attached is the meeting notice invitation we received to the NC Division of Water Quality's (DWQ's) meeting of Water Users in the Cape Fear River Basin. This is a follow-up to a meeting held back in October.

Progress Energy plans to attend this meeting, but has not been asked to make a presentation regarding the HAR project (like we did in October) nor do we plan to make one. We are attending like other water users to hear NC DWQ's plans for modifying their river basin model. As of yet, we have not seen the agenda for this meeting other than what you see below.

Let me know if you have any other questions.

Thanks,

Paul Snead

Subject: Meeting of Cape Fear River Basin Water Users

WHAT: Meeting of Water Users in the Cape Fear River Basin

WHEN: Thursday, March 20 at 10 AM

WHERE: Public Works Commission

955 Old Wilmington Road

Fayetteville, NC 28301

You are invited to participate in a meeting of Cape Fear River Basin water users on March 20, 2008 at 10 AM.

This is a follow-up meeting to a meeting in which you may have participated in October 2007 with the purpose of updating water use information in the basin.

In this March meeting, results will be presented that were generated using the Cape Fear Hydrologic Model. The model was used to study current and projected water use in the years 2030 and 2050, and incorporates the updated information provided by water users. A broad range of results will be presented to evaluate impacts on water availability.

There will also be time for interaction with other water users and to share questions and answers.

Please plan to participate or ask someone to represent your organization in this meeting.

A meeting agenda and support materials will be provided to you as the

date of the meeting nears.

I look forward to seeing you on March 20.

Phil Fragapane
