UN#08-023

Subject: UniStar Nuclear Energy, NRC Project #759
Nine Mile Point, Unit 3
COL Application Expected Submission Date

Reference: NRC Regulatory Issue Summary 2008-01, "Process for Scheduling Acceptance Reviews Based on Notification of Applicant Submission Dates for Early Site Permits, Combined Licenses, and Design Certifications and Process for Determining Budget Needs for Fiscal Year 2010," dated January 10, 2008

In the reference Regulatory Issue Summary (RIS) the NRC has requested that, 90 days prior to the expected submission date, applicants declare their expected submission date (month, day, year) to the NRC for each early site permit (ESP), limited work authorization (LWA), standard design certification (DC), and partial or complete combined operating license (COL) application.

This letter provides the voluntary response to the request. UniStar Nuclear Energy expects to submit a complete COL application for the proposed Nine Mile Point, Unit 3 on or before September 30, 2008.

If you have any questions or need additional information, please contact me at (410) 470-5531.

Respectfully,

A handwritten signature in black ink, appearing to read "John E. Price".
