

July 30, 2008

The Honorable Rodney P. Frelinghuysen
Member, United States House of
Representatives
30 Schuyler Place
Second Floor
Morristown, NJ 07960

Dear Congressman Frelinghuysen:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your letter to Ms. Rebecca Schmidt, dated June 25, 2008, in which you identified a letter from your constituent, Mr. Richard Krementz, III, regarding GemClear LP application for a license to release irradiated gemstones to persons exempt from the regulations. The NRC has been in contact with Mr. Krementz on numerous occasions since the initial application in December 2007, and will continue these communications until resolution.

As part of its mission to protect public health and safety, NRC evaluates the information submitted in an application for a license to use radioactive material to ensure that it meets all applicable standards and regulations. Most application reviews take 90 days or less, but may take more time, depending on the application's complexity. For your information, I have enclosed the letter responding to Mr. Krementz concerns.

If you have any questions please feel free to contact me.

Sincerely,

/RA by Martin J. Virgilio for/

R. W. Borchardt
Executive Director
for Operations

Enclosure:
As stated
