SUMMARY

We have reviewed your application dated April 9, 2008, and your letter April 7, 2008, and find that we need additional information as follows:

unsealed OK
1. Items 5 and 6 of your application request authorization for 1.0 curie of technetium – 99m. However, the chemical/physical form is not specified. Please specify whether you are requesting sealed or unsealed technetium-99m and which chemical form(s).

OK
2. The authorization for Dr. Dickinson in Item 7 requests that she be authorized for the use of Tc-99m, Co-57 and Cs-137. The Co-57 and Cs-137 are materials not requested in Items 5 and 6 of your application. As this will not be a Part 35 license, 10 CFR 35.65 authorizations will not apply.

Please specify the chemical/physical forms, possession limits and purposes/uses for the Co-57 and Cs-137.

✓ Weak commitment but OK
3. Your proposed training program appeared to be incomplete. Please submit a description of the groups of workers who may be trained, how the training will be assessed and the qualifications of instructors. You may refer to NUREG 1557, Vol. 7, section 8.8 item 8 for assistance. *OK*

Submit the requested information within 15 calendar days (by June 19, 2008) by referencing control number 317081 to facilitate proper handling.

If we do not receive an adequate response by this date, we may void the current action without attempting to contact you further and without prejudice to resubmission of your request at a later

date. Upon receipt of your response we will reactivate placement of your request in our database and resume our review. Address your written response to my attention at the above address.
