P.O. Box 337, MS 123

SUBJECT: NUCLEAR FUEL SERVICES, INC. - ACCEPTANCE OF REVISION 12 TO THE
EMERGENCY PLAN (TAC L32678)

Dear Ms. Moore:

I am responding to your letter dated April 28, 2008, which submitted Revision 12 of your Emergency Plan. We have completed our review of the changes and find them acceptable. Specifically, we agree that the changes do not decrease the effectiveness of the emergency response program at Nuclear Fuel Services, Inc., and were properly submitted under Title 10 of the *Code of Federal Regulations* (10 CFR) 70.32. Conditions S-1 and S-24 of your license will be revised to include these revisions in a future license amendment.

You may wish to consider the following comments when you prepare your next revision to the plan:

1. The plant layout in Figure 1-3 would be more useful if the buildings in the BLEU Complex were identified.
2. Section 2.1.5 discusses a revision of the 100-year flood elevation map expected in 2007. You may wish to update that statement.

Issuance of this acceptance letter closes TAC L32678.

If you have any questions regarding this matter, please contact me at (301) 492-3123, or via e-mail to kevin.ramsey@nrc.gov.
