Mr. Richard A. Meserve  
Chairman  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Meserve:

Thank you so much for your very informative letter of September 6 to Governor Mark Warner. I appreciated the copy to my office, as well.

We in Virginia share your efforts to enhance security. It is great to see all the action of NRC to further enhance the rigorous security progress at the nuclear facilities located in Virginia.

It is important that we keep up to date and the information contained in and the actions described in your letter are very informative and helpful. We stand ready to cooperate with NRC in every way.

We thank you for your efforts and will stay in touch.

---

Sincerely,

  
John H. Hager
