Washington, DC 20555

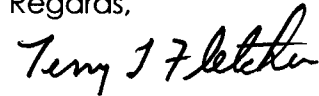

Re: **License SUA-1473, Docket No. 40-8905**
Proposed Modification to Environmental Monitoring Program

Dear Mr. McLaughlin,

By this letter Rio Algom requests NRC approval to relocate the south diversion environmental monitoring station established at the Ambrosia Lake facility. Relocation of the existing station is necessary to allow for ongoing reclamation construction activities to proceed. Rio Algom intends to relocate the station approximately 250 feet west of the present location. See attached drawing.

If you have any questions or need additional information, please do not hesitate to call me at (505) 287-8851 x 11.

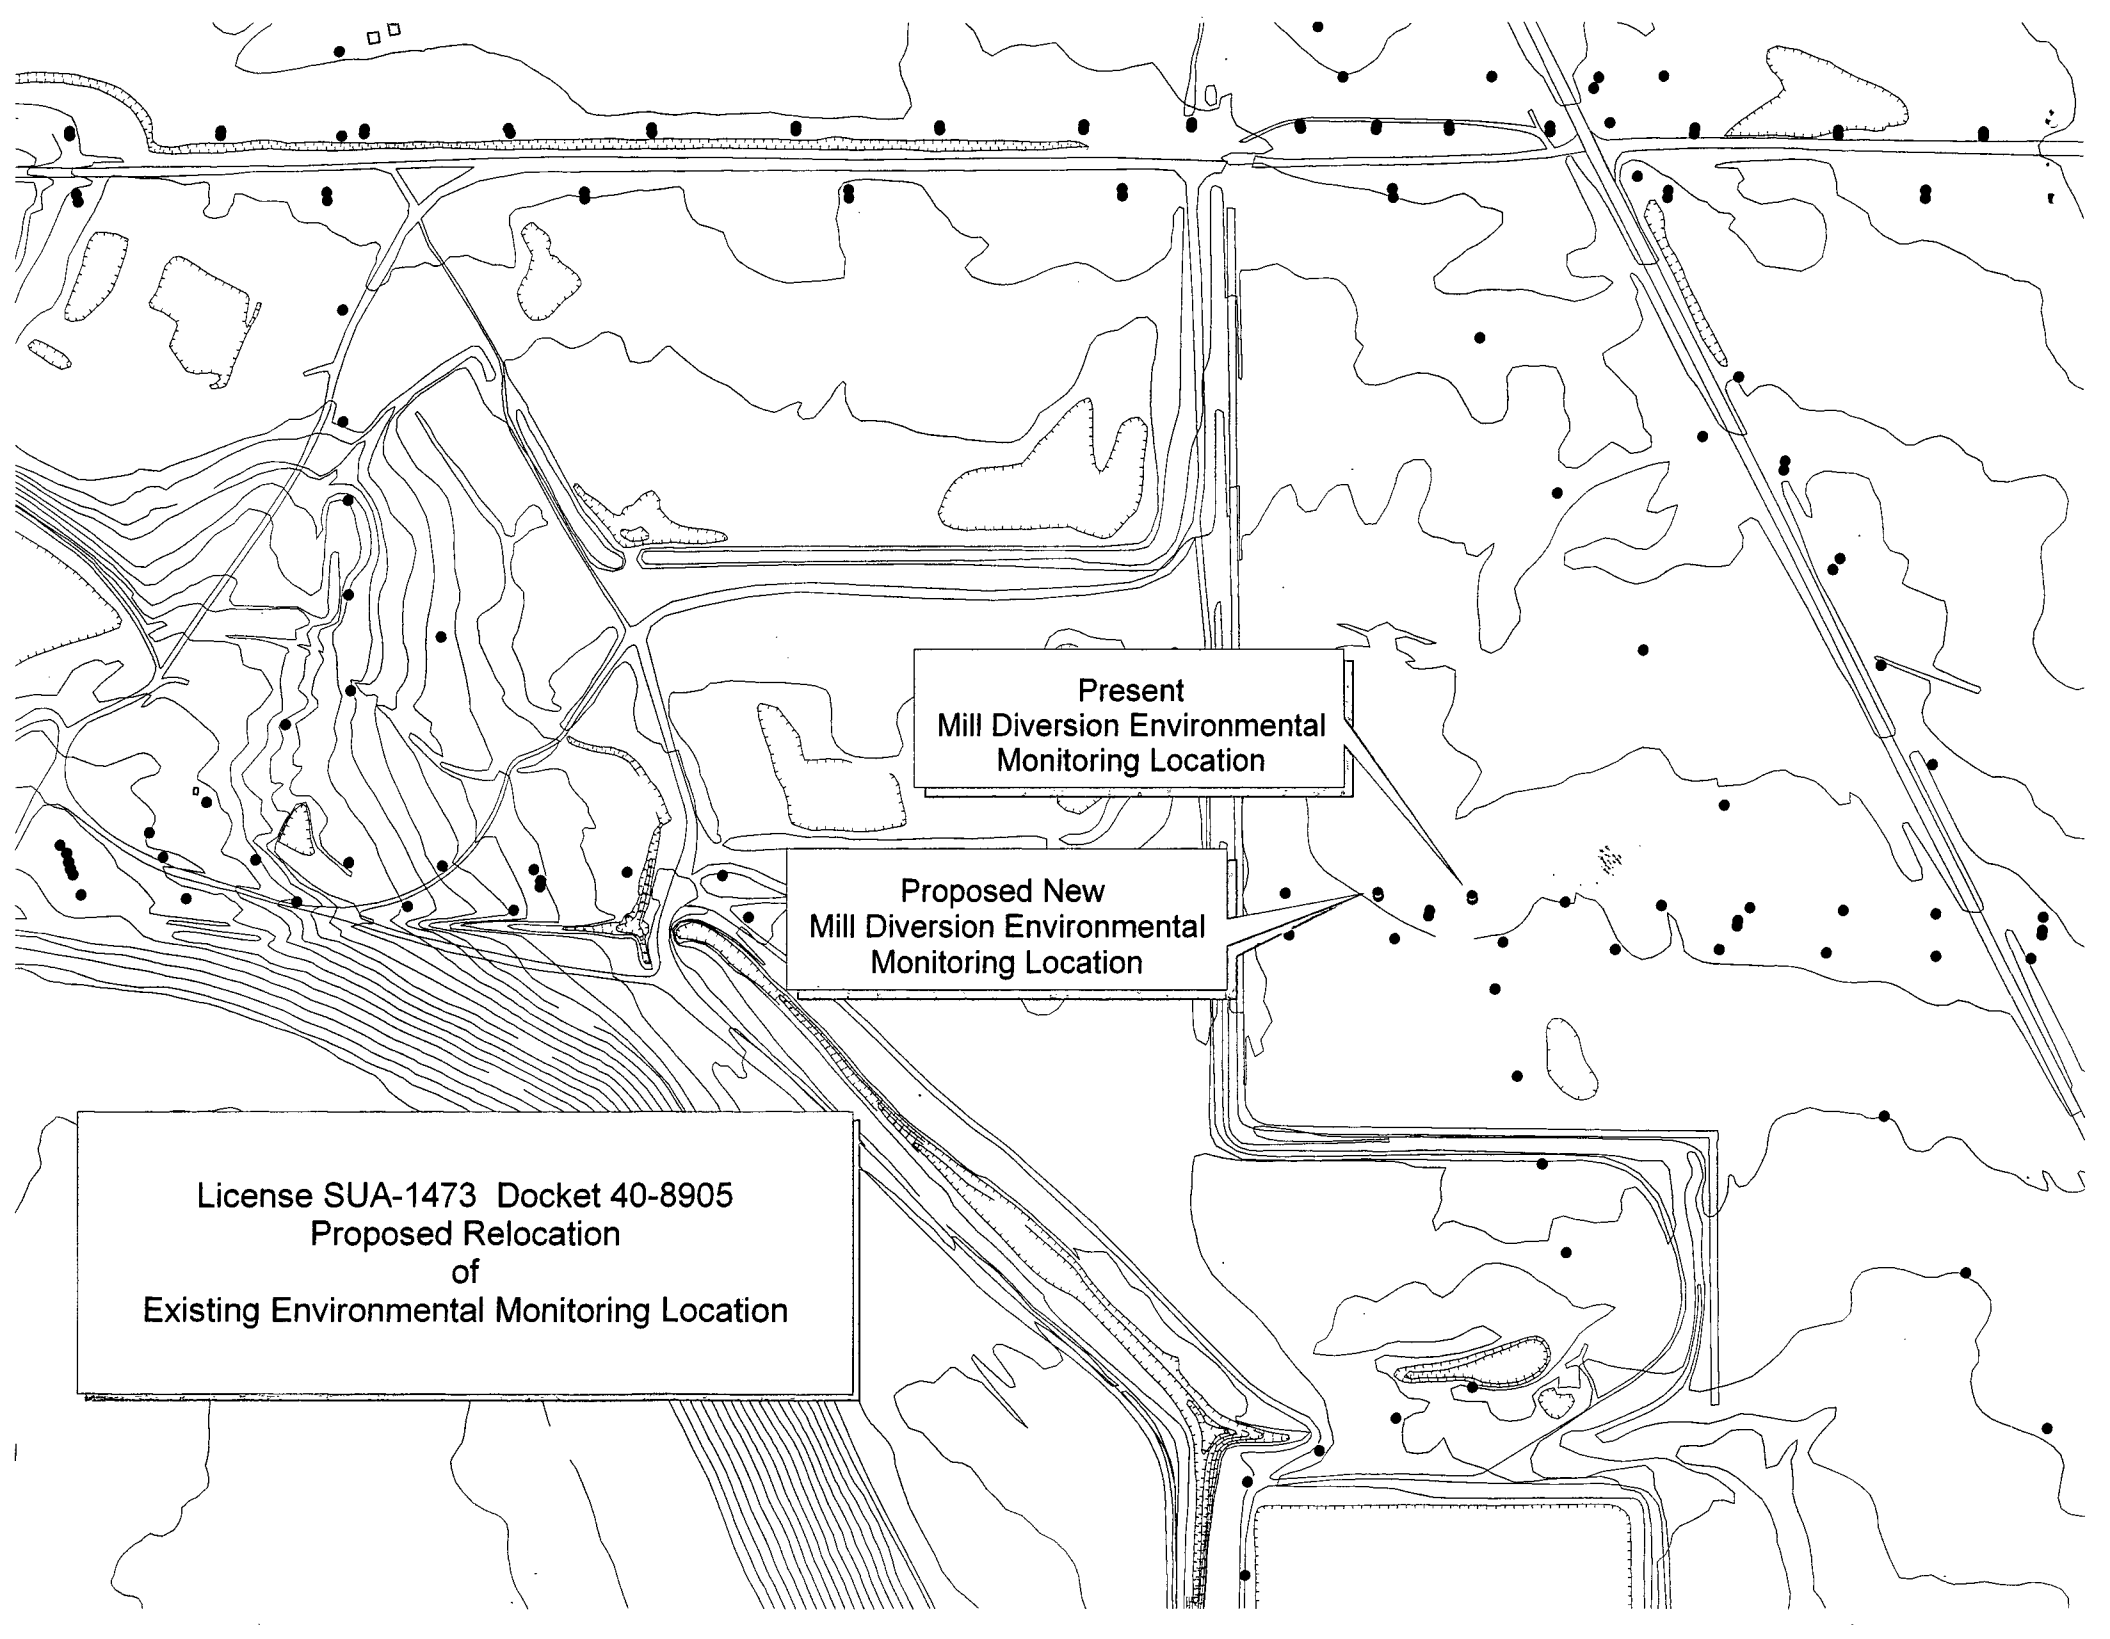

Regards,

Terry Fletcher
President
