Documents Title in ADAMS)

Summary: I spoke with Mr. Figuera about the expiration of the license on June 30, 2008. He stated that he had spoken to Ms. Roldan and that the issuance of the license with a two-year term was a mistake. I provided Mr. Figueroa with Ms. Roldan's cell phone number, determined that Ms. Roldan had not visited the location of use, and indicated that I would speak with the license reviewer who issued the license to determine why the license was issued with a two-year term.

I spoke with Tom Thompson, the reviewer who signed the license, to have him research why he only assigned a two-year term to the license.

10:30 Ms. Roldan called. She informed me that she had spoken to Elizabeth Ullrich about the license and the inspection. Ms. Roldan went to the location listed as the mailing address instead of the location of use by mistake. She later discovered that the location of use was on the other side of the building where construction was occurring. She was authorized to complete the inspection by telephone and made contact after several attempts. After review of licensee documents in ADAMS and discussion with James Dwyer, Branch Chief, Ms. Roldan stated she was authorized to make a corrected copy of the license increasing the term to ten-years and an expiration date of June 30, 2016. She stated that information on the docket was sufficient to address the concerns from the Request for Information during the initial application process in 2006. I stated that I would inform the license reviewer of this conversation and try to resolve any issues at this end.

11:15 I located the corrected copy in the Branch Chief's office and

noted that it was, as yet, unsigned. The license reviewer examined the corrected copy and it was decided that a discussion would be needed between all parties concerned, i.e., Branch Chief, License Reviewer, and Inspector.
